Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/21/07 has been entered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-10, 12-14, 17, 20, 21, 24, 37, 39, 41 and 42-45 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The steps of spinning the workpiece in horizontal orientation, forming the boundary layer on the lower surface of the workpiece; the use of a liquid source separate from the jet source to form the boundary layer; controlling the thickness of the boundary layer; and directing the liquid jet through the boundary layer are critical or essential to the practice of the invention. The claims, which do not include these steps are not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

Claim 1 and dependent claims lack the step of spinning the workpiece in horizontal orientation and lack the recitation that a liquid source separate from the jet source is used to form the boundary layer.

Claim 42 and the dependent claims lack the steps of forming the boundary layer on the lower surface of the workpiece; the use of a liquid source separate from the jet source to form the boundary layer; controlling the thickness of the boundary layer; and directing the liquid jet through the boundary layer are critical or essential to the practice of the invention.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 42-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are indefinite because the term "the workpiece" lacks proper antecedent basis.

Allowable Subject Matter

6. Claims 25-29 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter: the prior art taken alone or in combination fails to teach or fairly suggest a method comprising each and every limitation of the claimed method.

Response to Arguments

8. Applicant's arguments, submitted in last two responses, filed 8/21/07 and 3/22/07, with respect to the rejection(s) of claim(s) under 35 USC 112 and 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made under 35 USC 112 (1) and (2).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander Markoff whose telephone number is 571-272-1304. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Barr can be reached on 571-272-1414. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
